Module Glossary

This module covers the following topics.

Module Glossary

- Response time
- Throughput
- Performance
- Average Execution time/Weighted Execution time
- Million Instruction Per Second (MIPS)/Million Floating Point Operations per Second (MFLOPS)
- CPU Time
    - User CPU Time
    - System CPU Time
- Clock Cycle time/Clock rate (Frequency)
- Instruction Count
- Average Clock Per Instruction (CPI)
- Memory Latency
- Complex Instruction Set Computer (RISC)
- Reduced Instruction Set Computer (RISC)
- Instruction Cycle
