

Module Glossary

This module covers the following topics.

Module Glossary

- Computation Gap
- Multifunctional system
- Conflicts and conflict resolution
- Logical speed
- Physical speed
- Concurrency
- Flynn's classification
- Control flow computation
- Dataflow computation
- Parallelism
- Array of processors
- Associative processor
- Pipelining
- Linear Pipe
- Feedback Pipe
- Scalar Pipe
- Vector Pipe
- Unifunction Pipe
- Multifunction Pipe
- Statically Configured Pipe
- Dynamically Configured Pipe
- Multiprocessing
- Tightly coupled processors
- Loosely coupled processors
- Overlapping
