

# Module Glossary

This module covers the following topics.

# Module Glossary

- Stationary data sources vs. Mobile data sources
- Public data and broadcasting
- Advantages of broadcasting
- Challenges and potential solutions
- Indexing objects on air channel
  - Signature based indexing
  - Tree based indexing
- Object oriented indexing
  - Single class indexing
  - Hierarchical indexing
- Analysis of object oriented indexing
- Object organization on the air channel
  - Object clustering
  - Clustering methods
  - Analysis

# Module Glossary

- Object organization on parallel channels
  - Different methods
  - Analysis
- Accessing objects from indexed parallel channels
  - Conflicts
  - Accessing methods
  - Analysis
  - Replication
- Broadcasting contents
